The hotline saved so many votes.

She hasn't signed yet so we can suggest an edit – thanks for flagging!

Nice to see that our hotline saved this vote.

However, it is the county, not the state, that processes voter registrations--so that is a little frustrating to read the misplaced blame here.

Hey Liza, Hannah mentioned she had been working on affidavit with you and she just recently sent you a draft of it. Could you send me a copy of that?

Best,  
Justin

I just wanted to give you a heads-up that Penn and Sara asked me (as a volunteer) to reach out to Hannah Spero because they believe that her story is so compelling, that they want to see if she would be willing to speak about her voting experience before the DeKalb County Commissioners.
